MISSION: The Child & Family Services mission is to provide family centered services in child care, health and nutrition, and family preservation for the strengthening of children and families.

New Hope's Child & Family Services offers family-centered programs that range from child-care, supplemental foods, nutritional counseling, and family preservation to intensive home-based assistance.

Our goal is to promote and strengthen each family by providing the foundation upon which healthy families can flourish.

This past year Child & Family Services continued to be an important group of programs. With new and expanding programs it will continue to be a strong pillar for New Hope Services.
